These data are based on Vector One(TM):National by Verispan, L.L.C., which collects data from a panel of retail pharmacies, third party payers, and data providers. Data shown here are for calendar year 2003. Retail pharmacies include independent pharmacies, chain pharmacies, food stores, and mass merchandisers found in 814 defined regional zones. These data describe the total sales for retail pharmacies only and exclude those filled by mail order. The total sales reflects the amount the pharmacies are paid for all prescriptions filled. Mail order sales totaled \$34.9 billion or 17% of total sales in 2003 according to industry statistics reported by The National Association of Chain Drug Stores (<http://www.nacds.org/wmspage.cfm?parm1=507>).

Rx drugs or Prescriptions: All products filled by retail pharmacies, including new prescriptions and refills of both brand name and generic drugs. These products exclude drugs purchased without a prescription (i.e., over the counter items).
 Retail Price: The total price the pharmacies charge for prescriptions.

Vector One(TM):National from Verispan, L.L.C.: Special Data Request, 2004.
